Purpose of the Role

The Registered Nurse is responsible for providing quality nursing services within a health service setting, consulting with the Nurse Unit Manager or team leader in the coordination and standards of care for patients within the unit.

This role will work collaboratively within the context of a multidisciplinary team in the delivery of evidence-based person-centred care and service planning, supporting a culture reflective of the principles of the Magnet Recognition Program®.

As the Registered Nurse, you will demonstrate competence in the provision of nursing care as specified by registration requirements, NMBA standards and codes, educational preparation, relevant legislation and context of care.

Our Values

Gold Coast Hospital and Health Service is committed to its six guiding principles which are at the core of all positions and articulate the behaviours that are required when working within the Health Service:

Whilst we implement our strategic objectives to be recognised as a centre of excellence for world class health care, our [values](#) provide the framework to focus our individual behaviours and performance outcomes.

Professional Practice Model

Gold Coast Health's [Professional Practice Model](#) (PPM) was developed as part of our journey to Magnet recognition. It depicts how we practice, collaborate, communicate and develop professionally to provide safe, high quality, person-centred care.

Organisational Alignment

Gold Coast Health has a Core Capability Framework (CCF) with five core capability groups; Personal Attributes; Building Relationships, Results Focused, Business Enablers, Leadership and People Management. Under each of the five capability groups, individual capabilities are identified which are essential to drive performance excellence across our workforce. Below outlines the five core role capabilities required to deliver against the key duties and accountabilities of this role, however, all capabilities listed within the framework remain essential to successfully perform at Gold Coast Health.

Capabilities are aligned to Leader Profiles; Leading Self, Leading Others, Leading Leaders and Leading Executives. The Leader Profile and Core Capabilities for this role are detailed below. Visit the [Core Capability Framework](#) (CCF) for further detail.

The sixth domain of the CCF is the Professional Capabilities domain. Visit the [Nursing/Midwifery Career Pathways](#) factsheet for further detail. The Key Duties and Accountabilities section in this role description is based on the Nursing/Midwifery Career Pathways.

Leader Level: Leading Self

Core Role Capabilities

Personal Attributes	Individual behaviours influenced by our values and ethical compass	Leading Self Act with Integrity - Work within the limits of level and delegation, acknowledging mistakes, seeking guidance and upholding ethics
Build Relationships	Shape and maximise relationships with colleagues, patients and the community	Leading Self Work Collaboratively - Work collaboratively within teams, communicating progress, providing information, helping others and acknowledging shared effort
Results Focused	Drive and influence successful organisational outcomes	Leading Self Demonstrate Accountability - Take responsibility for actions both professionally and personally, acting within authority levels, acknowledging mistakes and seeking opportunities to continually learn and grow
Business Enablers	Boost effective service delivery and champion change management	Leading Self Leverage Technology - Demonstrate understanding of the use of technology, complying with policies and protocols
Leadership and People Management	Inspire, engage and build our workforce	Leading Self Build and Develop our People - Contribute to developing capability to deliver services, identifying learning opportunities and continually seeking feedback

Magnet Recognition Program®

Gold Coast Health is the first whole health service in Australia to achieve Magnet Recognition®, a four-yearly credential that is the hallmark of excellence and the highest international recognition healthcare organisations can achieve for nursing and midwifery practice.

Magnet organisations are renowned for exceptional patient care and outcomes; nursing and midwifery professionalism; support for lifelong learning; high levels of staff and patient satisfaction; values-based work environments; research and innovation.

About Nursing and Midwifery Services

Gold Coast Health nurses and midwives are well placed to contribute to the organisation's vision to have the best health outcomes in Australia, having achieved international recognition for excellence in patient care and outcomes through the prestigious Magnet Recognition Program®. Over 4,800 nurses and midwives contribute to building a culture of success through the provision of high-quality care, innovation and professional governance. Staff take pride in their work and feel empowered to perform at a high level.

Initiatives at Gold Coast Health such as the Nursing and Midwifery Professional Recognition program (NMPRP) aim to create a culture of excellence through promoting the professional practice requirements set by the Nursing and Midwifery Board of Australia and by recognising, rewarding and celebrating expertise in nursing and midwifery practice.

Key Duties and Accountabilities

- Fulfill the responsibilities of this role in accordance with Queensland Public Service, the Gold Coast Hospital and Health Service (GCHHS) values.
- Comply with the [Code of Conduct for the Queensland Public Service](#) and all policies and procedures.
- Comply with the [National Safety and Quality Health Service Standards](#) and the Gold Coast Health [Clinical Governance Framework](#) in all areas of your practice.

CLINICAL

- Maintain and role model advanced person-focused, evidence-based care including the appropriate delegation of activities to Assistants in Nursing, Enrolled Nurses and other Registered Nurses.
- Assess, plan, implement and evaluate nursing care in collaboration with individuals, peers and the healthcare team to achieve goals and health outcomes.
- Make appropriate referral to and consult with peers, other relevant health professionals/service providers/ community and support services.

EDUCATION

- Actively engage in professional development of self and support the development of others, including students.
- Engage with consumers to support shared decision making relevant to their care and health literacy within scope of role
- Participate in activities related to clinical, professional and organisational learning to contribute to health care outcomes.

LEADERSHIP

- Role model and uphold nursing and HHS/directorate/facility/service standards, values, codes and guidelines.
- Collaborate with others to provide leadership for professional and clinical practice and provision of health services across the continuum of care.
- Engage with the clinical nurse and others to achieve best practice outcomes.

SYSTEM SUPPORT

- Role model and uphold Work Health and Safety policies and procedures.
- Awareness of human resource, rostering, business planning and information management supportive frameworks and their application.
- Participate in the development, review and evaluation of clinical nursing standards, guidelines, protocols, pathways, procedures, standards and systems of work.

RESEARCH

- Use evidence-based research findings and experience to support clinical decision-making.
- Actively support and lead quality improvement and research initiatives within the work unit, contributing to the use of evidence-based practice to facilitate improved patient outcomes.

- Provide high standards of evidence-based nursing care and documentation, to facilitate quality patient outcomes, in accordance with the National Safety and Quality Health Service Standards and organisational policies and procedures.

Work, Health and Safety

- Follow policies, procedures and instructions relating to work health and safety that are relevant to the work being undertaken to ensure high quality and safe services in the workplace.
- Take reasonable care for your own health, safety and wellbeing and take reasonable care to ensure that your acts or omissions do not adversely affect the health, safety and wellbeing of others.
- Employees who are appointed to the GCHHS are accountable for information security, management and appropriate use, in accordance with legislation, standards, policies and procedures.
- Comply with reasonable instructions that are provided for the safety of you and others at the workplace.

Mandatory Qualifications / Professional Registration / Other Requirements

- A Bachelor of Nursing or equivalent is a mandatory qualification for this position.
- Registration as a Registered Nurse under the Health Practitioner Regulation National Law Act 2009 with a current annual practicing certificate from the Australian Health Practitioner Regulation Agency is essential. Certified copies of the required information must be provided to the appropriate supervisor/manager prior to the commencement of clinical duties.
- It is a condition of employment in this role for the employee to be, and remain, vaccinated against the following vaccine preventable diseases during their employment ([Health Employment Directive No. 01/16](#)); measles, mumps, rubella (MMR), varicella (chicken pox), pertussis (whooping cough), hepatitis B.
- It is a condition of employment in this role for new employees to GCHHS to undertake a tuberculosis screening, to identify if the tuberculosis vaccination may be required in accordance with the Queensland Health Protocol.
- A postgraduate qualification within a relevant specialty will be highly regarded.
- This position requires effective computer skills to use clinical information systems and other applications relevant to role.
- This position may be required to work across Gold Coast Hospital and Health Service.

How to Apply

Please submit the following for the panel to assess your suitability:

- Your **resume**, including a comprehensive employment history, the qualifications you hold and the contact details for at least two referees (Referees should have a thorough knowledge of your capabilities, work performance and conduct within the previous two years).
- A **cover letter** (no more than 2 pages) outlining your suitability for the role. In your response, please consider the Core Role Capabilities listed under 'Organisational Alignment' using recent examples of your experience, aligned to the 'Key Duties and Accountabilities' listed above. A six month probation period may apply to this appointment.

Role-Specific Information

About the Service line/Team/Unit

The Gold Coast Hospital Perioperative Service is located on the second floor of D block Gold Coast University Hospital and services patients requiring elective and emergency surgical procedures for the Gold Coast region which extends from south of the Logan River to the Queensland/New South Wales border at Tweed heads and west to Beechmont and Tamborine Mountain. Some trauma, neurosurgical and vascular cases are also transferred to Gold Coast University Hospital (GCUH) operating theatres from Northern NSW.

The Gold Coast University Hospital Anaesthetic/Post Anaesthetic Care Unit provides support both Pre and Post operatively to patients requiring elective and emergency surgical procedures for the Gold Coast district. There is capacity to run 21 theatres, 2 interventional radiology theatres and an integrated Magnetic resonance imaging service. A 35 bay Post Anaesthetic Care Unit (PACU) is also incorporated into this service with an additional Surgical Admission Unit (SAU) and Day Surgery Unit (DSU) included. The of these services are to provide an environment that is safe, efficient, cost effective, sustainable and patient-focused for all clients who access any part of these services.

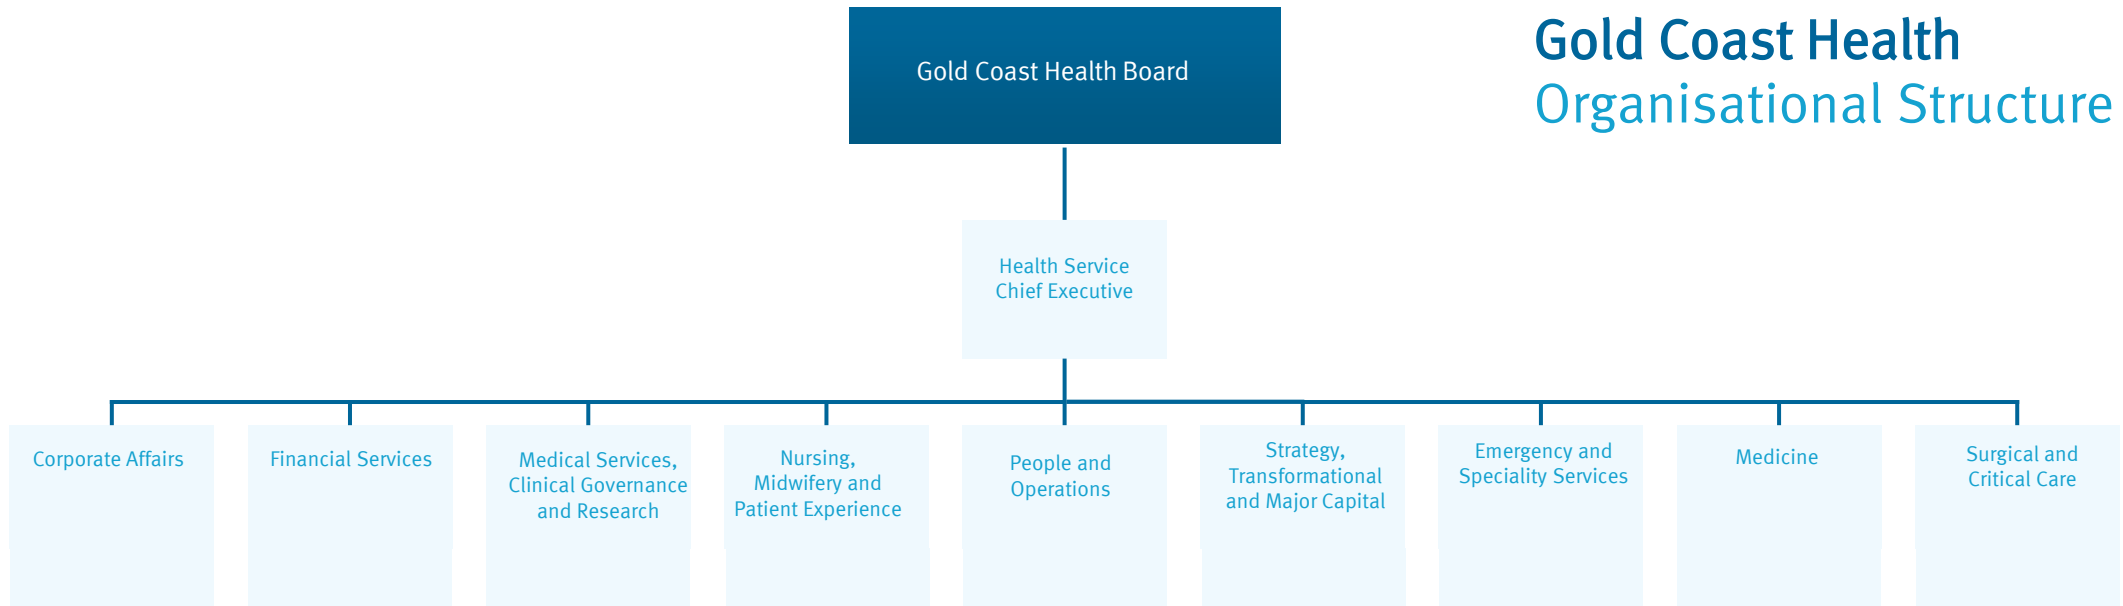

About the Role

- Be required to work a full range of shifts to meet our service.
- Practice to full scope of practice as per the defined practice standards for registered nurses set out by the NMBA and registered with AHPRA.
- Effectively manage self and work with the Nurse Unit Manager, Associate Nurse Unit Manager and Clinical Nurses to meet personal professional development needs.
- Coordinate clinical care in the work unit (including performing the role of shift coordinator as required) utilising well developed contemporary clinical and problem-solving skills.
- Role model a people focused approach to evidence-based care and support and maintain a unit culture reflective of the principles of Transforming Care.
- Provide relevant, contemporary information and education to patients/clients and families/care-givers to promote independence and control over their health.
- Provide effective communication throughout the service units to promote positive team functioning and facilitate consumer focused service delivery.
- Ensure patients and other staff are treated fairly and with mutual respect and understanding, regardless of cultural, religious, ethnic and linguistic backgrounds.
- Responsible for delegation of scope of practice specific duties to EEN as required.
- Provide effective and efficient clinical care and work in collaboration with the multidisciplinary team and non-clinical personnel to provide quality nursing care.
- Participate in quality improvement and evidence based practice activities to ensure consumer care meet best practice standards.
- Contribute to clinical research at a unit level and contribute to and support the implementation of evidence based practice.
- Contribute to the educational needs of all members of the multi-disciplinary team including students and novice members by imparting knowledge of the treatment and nursing care and development of specialist nursing skills for patients requiring care.
- Monitor clinical staff capabilities and act in the role of preceptor and mentor to beginning practitioners to develop their potential, acting as a mentor and provide support and a positive learning environment to students, new and novice staff within the In-Patient Unit.
- Be actively involved in a Quality portfolio as delegated.
- Maintain contemporary Nursing practice through on going professional development.
- Demonstrate commitment to building the GCHHS vision of becoming a world-class organisation by participating in and contributing to the Magnet Recognition Program®.
- Follow policies, procedures and instructions to include ACORN standards and any process relating to work health and safety that are relevant to the work being undertaken to ensure high quality and safe services in the workplace.

Reporting Relationships

- This position reports to the Nurse Unit Manager, Anaesthetic/Post Anaesthetic Care Unit.
